WWW.UNITEDASPHALTS.COM

United Asphalts manufactures and sells all four standard types of built-up roofing asphalt. They are Types 1, 2, 3, and 4, available in both carton and bulk form. All of our products come from high-grade U.S. crude oil sources and they meet or exceed ASTM D312-16a and D449 specifications. Each product is tested on a daily basis by our in house laboratory before a Product Quality Guarantee is issued.

Physical Requirements - Roofing Asphalt ASTM D312-16a

	Type 1 No Smell/Regular		Type 2 No Smell/Regular		Type 3 No Smell/Regular		Type 4 No Smell/Regular	
	Min.	Max.	Min.	Max.	Min.	Max.	Min.	Max.
Softening Point (F)	135	151	158	176	185	205	210	225
Flash Point (F)	575	--	575	--	575	--	575	--
Penetration @ 77 (F)	18	60	18	40	15	35	12	25
Ductility @ 77 (F)	10	--	3.0	--	2.5	--	1.5	--
Solubility in Trichloroethylene %	99	--	99	--	99	--	99	--

Physical Requirements - Waterproofing Asphalt ASTM D449

	Type 1 No Smell/Regular		Type 2 No Smell/Regular		Type 3 No Smell/Regular	
	Min.	Max.	Min.	Max.	Min.	Max.
Softening Point (F)	115	140	145	170	180	200
Flash Point (F)	450	--	450	--	475	--
Penetration @ 77 (F)	50	100	25	50	20	40
Ductility @ 77 (F)	30	--	10	--	2	--
Solubility in Trichloroethylene %	99	--	99	--	99	--
